ROOSEVELT CASE STILL ON TRIAL

DEFENSE ATTORNEY OUTLINES PLAN OF HIS SIDE'S ACTION

SAYS ONE SINGLED OUT

Declares Many Papers Published Report That Roosevelt Was Not Total Abstainer

By Associated Press.

Marquette, Mich., May 28.—Introduction of further testimony to show the abstenious habits of the plaintiff was resumed today in the libel suit of Theodore Roosevelt.

John Callan O'Loughlin, a Washington correspondent was the first witness. Col. Roosevelt entered the room and took his customary seat with a row of spectators inside the railing. His gaze turned upon the jury and then on O'Loughlin.

During court proceedings Mr. Roosevelt sits quietly caressing his heavy watch chain. He does it slowly and reflectively rather than nervously. Mr. Newett came into court with his counsel. He is very ill, but his ruddy complexion hid this from all but those who know him well. He sat looking straight in front of him and not at anyone in particular, utterly motionless as he has sat since the trial opened.

Mr. O'Laughlin on cross examination, denied that he was in charge of any work for the Progressive party. O'Laughlin said Roosevelt appointed him assistant secretary of state and he went on a mission to Japan. The same year that he ordered the Atlantic fleet to the Pacific.

"Now, you mention that Col. Roosevelt sent the fleet to the Pacific. Was that measure taken because of the relations between this country and Japan? Was it to prevent war?

"Well, yes, it was perfectly evident that Japan would not go to war with this country if it was apparent that this country was more powerful. It was one of the measures taken by Col. Roosevelt to prevent war."

Other Reports Printed.

Attorney Belden of the defense said the defense intended to ask questions of future witnesses in an attempt to show that there was in existence a general report amounting to a geheral reputation that Col Roosevelt does use liquor, and sometimes to excess; that these reports were published in newspapers and that Col. Roosevelt read these reports and this charge had never been contradicted by him, that the defendant published the report of the former president's reported excessive use of intoxicants believing it to be true and not with any malice.

The defense said it could not see in the presence of wide-spread comment by the public and in important newspapers that Mr. Roosevelt had been greatly damaged by the repetition of charges of intoxication in a remote weekly with a circulation of about 3000 copies.

"We propose to show that such charges as were made in the Iron Ore were by no means confined to this region."

THESE GRADUATES DO NOT FEAR UNLUCKY THIRTEEN

Sussex, N. J., May 28.—Superstitious dread still lurks with the elderly, but the younger generation here have determined to turn bad omens to good ones. The senior class of the Sussex high school has thirteen members. It is to receive diplomas on Friday, June 13, 1913. Many parents have petitioned the board of education to change the date, but the board referred the matter to the pupils and the latter vigorously opposed any move to "spoil the jinx." "It's such a perfectly complete hoodoo," said a girl member of the class, "that we wouldn't think of letting anything interfere with it. If the thirteen influence goes straight through the charm will be twisted and it will mean the bests of good luck for us all."

AUTOMATONS TO REPLACE MEN IN WAR, IS DREAM

Danish Engineer Capitalizes His Vision by Inventing New Death Machinery

By Associated Press.

Copenhagen, May 28.—The dream of a Danish engineer named Aesen of seeing the next war waged by automatons in place of soldiers has developed into the patenting of an invention which it is claimed would revolutionize defensive tactics.

The contrivance is a cylinder which may be buried in the ground for years the same as submarine mines are placed in harbors; doing no damage until they are fired. The cylinder is operated by electricity from a station four or five miles distant.

When a button is pressed the cylinger jumps two feet from the ground and fires four hundred shots horizontally the shots being effective at 3000 yards.

Aesen claims crops may be grown over the invention in time of peace and that the contrivance would be so well hidden the enemy would not know its position.

DENIES KATY IS TO BUILD NORTH

RECENT REPORTS REGARDING RUMORED EXTENSIONS ARE CONTRADICTED

PLANS NOT FORMULATED

Superintendent Sullivan Secures Definite Information Following Many Inquiries

If the Wichita Falls & Northwestern is to be extended to Denver or to any other point from Forgan, Okla., in the immediate future, officials of the road here or officials of the Katy at Dallas know nothing of it. Dispatches have emanated from Kansas City, Oklahoma City and other points within the last few weeks that the Northwestern would build into Denver immediately and that 100 miles of the extension was already under contract and work already started.

Superintendent Sullivan has been receiving telephone calls and telegrams almost daily from contractors anxious to get in on the job. Knowing nothing about the extension himself he inquired from the Dallas office of the Katy and found that nothing was known about the rumored extension there.

In the absence of other information Mr. Sullivan is inclined to believe the reports have arisen from the proposal to build a branch line from the Northwestern tracks to Beaver, a distance of about five miles.

VAIN EFFORT TO AVOID RECEIVER

FRISCO DIRECTORS HOPEFUL UP TO THE VERY LAST MINUTE

TENDERS OF ASSISTANCE

Bondholders, However, Decided Receivership Was Only Way Out of Troubles

By Associated Press.

St. Louis, May 28.—Directors of the St. Louis and San Francisco, which went into receivership yesterday, had hoped until Monday night that a receivership could be avoided, according to the statement of a director today. He said the New York banking house of Speyer and Company was willing to aid the railroad, but on such qualifying terms that the St. Louis bondholders thought a receivership the only solution.

Twelve hundred persons in St. Louis are said to own securities in the railroad and their losses on the recent shrinkage of Frisco shares is estimated at $7,000,000.

Attorney Frederick W. Lehmann and Charles Nagel, representing creditors said they preferred to have as receivers men not connected with the road, thus opposing the appointment of President Winchell and of Mr. West, whose trust company had handled many financial affairs of the road. Mr. Nagel also requested that the receivership be made temporary until he could get definite instructions from his clients.

Objections of Attorneys Lehmann and Nagel did not prevail with the court, who appointed Mr. West and President Winchell receivers.

LIGHT SHOWING OF OIL ON MUNGER RANCH WELL

Struck at Depth of 830 Feet—No Test Yet Made of New Burkburnett Shallow Well

A small showing of oil was struck today in the well on the Munger subdivision of the old Jones ranch, near Holliday, at a depth of 830 feet. The showing was a light one, and drilling has been resumed. This well is being put down by L. C. Hivick and is one of the most important tests now being made. Several Wichitans went to the well this morning to investigate the report that oil had been struck, but found it only a light showing.

No test has yet been made of the Burkburnett Oil Company's well on the Hardin survey, but the well will be tested as soon as the hole can be cemetited. The drill passed through the oil sand Sunday, going several feet below it, and it was found necessary to cement the open hole below the sand. This will probably be done by tomorrow.

The well on Waggoner Brothers' ranch was not as dry as at first reported there being four feet of oil sand mixed with shale, at 1745 to 1749 feet. Drilling has been resumed but if nothing is encountered in the deeper strata, it is understood the company will attempt to develop both the 1740 foot sand and that which was found at about 1400 feet.

The Guffey Company has made a location on the northwest subdivision of the J. E. Roller tract in the Burkburnett field, the new well being in the extreme northwest corner, more than a mile from Roller No. 1. The latter was drilled to 2200 feet without finding the pay. The new well is just across the creek from the George tract, where Reese Allen and J. A. Fisher have a shallow well.

New Haven, Conn., May 28.—Former President William H. Taft in his concluding lecture at Yale on "Some Questions of Modern Government," declared the United States was "ludicrously unprepared for war," and criticised Congress for failure to provide for an adequate army and navy. Continuing he said:

Another girl, whose burned hands corroborated her story, said she had come into the Johnson girl's room to find her in the act of swallowing the contents of a bottle labeled "carbolic acid" and had knocked the bottle from the other's hand. In doing so some of the acid was spilled on her own hand, burning it painfully. She testified the Johnson girl had been sick for several months. The jury was out only a few minutes. It developed in the testimony that the Johnson girl's attempt to drink the acid followed her arrest Saturday, when she gave bail for her appearance for trial at a later date.

Bulgarians Take Steps Apparently Intended to Drive Greeks From Position

By Associated Press.

Saloniki, May 28.—Severe tension continues between the Greek and Bulgarian armies facing each other north of here. Shots were exchanged yesterday and today. The Greeks accuse the Bulgarians as aggressors; in spite of the declaration made at Sofia that Bulgarian troops to observe a moderate attitude and to avoid conflicts with the Greeks, the Bulgarian commanders apparently are preparing to attack Eleftheria with a view of gaining complete occupation of that dominant position.

They have already placed guns on the hill crest commanding Eleftheria. Bulgarian troops also have occupied heights commanding another town of Lake Ibiran and the town of the same name occupied by the Greeks. The Greek generals believe the Bulgarians are systematically creating incidents and trying to drive the Greeks toward the sea and seize the position vacated by them.

FIGHTING PESTS BY USING POISON

A. AND M. COLLEGE ISSUES BULLETIN EXPLAINING PROPER METHODS

TO CHECK GRASSHOPPERS

Entomologist Says Damage Is Being Done to Growing Crops In Many Sections

The Times has received a copy of a bulletin issued by A & M College on the methods to be used in combating the grasshopper pest It is by Wilmon Newell, state entomologist and says

Grasshopper invasions are prevented, to a great extent, by doing away with the breeding places of these insects . When a farmer allows his land to 'lay out,' permits his farm to grow up in grass and weeds for a year or more, he is inviting an invasion Such fields are the breeding places for the hoppers and from these fields they migrate to adjoining crops Winter plowing—in December or January—of fields which have lain out the previous summer will destroy large numbers of the grasshopper eggs and thus prevent the normal abundance of these insects the following season

At the present time, however steps must be taken immediately to stop the damage complained of The hoppers are eating the alfalfa, corn and cotton and they can be destroyed best by poisoning

"If the major portion of the grasshoppers are still small and largely confined to the weed patches, the latter may be poisoned by dusting them lightly with paris green or london purple, and thus a number of the young hoppers will be poisoned. It must be remembered that stock must not be allowed to get at these weeds that have been poisoned.

Into six gallons of cheap molasses mix thoroughly, one pound of white arsenic. Spread this, in fine streams where the hoppers are at work, or if they are working their way forward in a field, spread it in front of the advancing army

Bran Mash Mixture.

"Another mixture often used successfully in poisoning these insects is poisoned bran mash, which is made as follows: Take about a pound of wheat or rice bran and one-half ounce of white arsenic and a half teacup of sugar or cheap molasses Add water to this and stir until the mixture is sloppy; not liquid, but just thin enough to run through the fingers The amounts of bran, arsenic and molasses may, of course, be much greater than this, depending on how much one wishes to mix up, but this relative proportion of the ingredients should be observed Paris green may be substitute for the white arsenic if desired The bran mash is distributed in the manner above described for the Criddle mixture

"One can cut a bunch of alfalfa or clover, or any other vegetation on which the grasshoppers is fond, and dust or spray it with paris green, afterwards distributing the bunches along the edges of the cotton or corn fields where the hoppers are thickest This poisoned vegetation should be placed out in the evening so that the grasshoppers will find it first thing in the morning when they are hungry and before the heat of the day has wilted it.

"In using any of the foregoing poisonous mixtures the farmer must take the usual sensible precautions to prevent the accidental poisoning of children or stock Stock must not be allowed to go where either mixture has been spread The molasses mixture, because sweet, might be eaten by small children should they find it.

"If the hoppers are working in alfa fields it must be borne in mind that the poison—especially the molasses or arsenic mixture—may remain on the plants for a long time If the alfalfa is quite tall when the poison is put out, it is likely to be all washed off by rains before it is cut On the other hand if the alfalfa is one-third grown, we would advise that it be cut, dried, raked up and hauled off the field before the poison is applied"

HOW TO GET STRONG

A Simple Remedy

Weakness may be caused by a run down condition, malassimilation of food, lack of iron in the blood or as a result of sickness

Whatever the cause, we want to say to every person who needs strength, you need Vinol, our delicious cod liver and iron tonic without oil, as it is the most efficient strength creator we have in our store

A case has just come to our attention from West Baden, Ind A beautiful young lady was a complete wreck, run-down, worn out and nervous, so she had to spend one-third of her time in bed Nothing which was given her did any good until Vinol was recommended by her druggist, which she says did her more good than all the medicine she ever took in her life put together, as it built her up so she is now strong, well and active.

It is the medicinal elements of the cod liver contained in Vinol added to the blood making and strengthening properties of tonic iron which makes it so successful and we will return your money if it does not help you.

What I Live For.

I live for those who love me,
For those I know are true,
For the heaven that smiles above me
And awaits my spirit too.
For the human ties that bind me,
For the task by God assigned me,
For the bright hopes left behind me
And the good that I can do.

I live to learn their story
Who have suffered for my sake,
To emulate their glory,
And follow in their wake—
Bards, martyrs, patriots, sages,
The people of all ages,
Whose deeds crown history's pages
And time's great volume make.

I live to hail the season
By gifted minds foretold
When man shall rule by reason,
And not alone by gold;
When man to man united,
The whole world shall be lighted
As Eden was of old.

I live to hold communion
With all that is divine,
To feel there is a union
'Twixt Nature's heart and mine,
To profit by affliction,
Reap truth from field's of fiction,
Grow wiser from conviction,
And fulfill each grand design.

I live for those who love me,
For those who know me true,
For the heaven that smiles above me
And awaits my spirit, too;
For the wrongs that need resistance
For the cause that lacks assistance
For the future in the distance,
And the good that I can do.

RECITAL AT THE COLLEGE ENTERTAINS LARGE CROWD

Another very enjoyable recital was given Tuesday night at the College of Music and Art, the younger pupil being the principal performers though there were several selections by others. Three vocal selections were given, the first by Miss Tressa Lee, who, although she has been a student but a short time, gave much evidence of talent. Miss Alice Burnside's "A Dream of Paradise" was another very enjoyable vocal selection, and Miss Grace Nolen, who like Miss Lee, sang in public for the first time at the recital, rendered her song in a manner most acceptable. On the piano Gertrude Bauch gave a difficult selection in excellent style, while Elgin Van Voy and Ralph Pond, both first year students, performed on the violin in a way that gave much promise. The program follows: Piano duet, Air de Ballet, Misses Louise Frieze and Jewel Brown; piano solo Rosaline Stampfli; piano solo "Joyful Peasant" Miss Marion Crabtree; piano duet, Misses Helen Grisham and Isabel Ford; piano solo, "Shepherd's All" Miss Edith Luecke; vocal solo "Last Night" Miss Tressa Lee; violin solo "Adoration" Miss Bernice Jackson; piano solo "The Butterfly" Miss Edeline King; recitation, "Scarsd O'Dyin'" Miss Mildred Harrington; vocal solo, Miss Grace Nolen; piano solo, "Recollections of Italy" (Nurnberg) Miss Ruth Stayton; piano solo, "Mazurka" (Von Gall) Miss Anice Farmer; violin solo, Elgin Van Voy; recitation from "Rebecca of Sunny Brook Farm" Miss Alice Jenne; vocal solo, Miss Alice Burnside; piano solo, Miss Louise Frieze; piano solo, Miss Mildred Van Voy; piano solo, Miss Gertrude Bauch; violin solo, Paul Pond; piano solo Miss Celia Stayton.

"OLD MAIDS' AID" MEETS WITH MISS VIVIAN MATHIS.

Miss Vivian Mathis was hostess to Tuesday's session of the "Old Maid's Aid" for a very enjoyable hour or two. A number of the regular members of the club are out of the city, but invited guests took their places and made the afternoon a merry one. There was the usual sewing circle, followed by dainty refreshments. Those present were Misses Agnes Reid, Kathryne Hindman, Edile Carver, Mabelle Clopton, Glen Maxsie of California, Esther Gorsline, Lillian Durrett of Fort Worth, Anne Freear, Grace Nolen, Mesdames W. W. Little, Frank Murchison, Harry May, H. J. Fenton.

MAN FROM WICHITA FALLS UNDER ARREST AT TULSA.

(Tulsa World)

O. L. Gantz, arrested by the federal and city authorities as a white slavery suspect, made a daring dash for liberty Sunday evening, at the entrance of police headquarters. Deputy United States Marshal Duckett and Assistant Chief of Police Hanson had arrested Gantz at his home on West Ninth street and were taking him to the city jail. Just as the officers and their charge were preparing to enter the station Gantz broke and ran. The officers gave chase and fired several shots at him, but with no effect. Gantz was the better foot racer.

Nellie Swing, the woman in the case, was questioned closely by the police before Gantz' arrest. The stories told by Gantz and the woman are said to have greatly conflicted. The couple came here from Wichita Falls, Texas. Gantz' wife followed him here and told the authorities about him with the result that he was arrested.

Notice to Knights.

There will be a special meeting of Pioneer Lodge No. 49 K. of P. at the Castle Hall, Thursday evening, May 29, at which time I will demonstrate the new Rank work in the three ranks. There is quite a change in this work and all who are interested should attend. I will also make report of Grand Lodge meeting which I attended as your representative. This meeting was held in the city of Corpus Christi the 12th and 14th of this month and would like for you to be present. A special program of entertainment is being prepared by the committee and I urge that you make it a point to attend.

Cows Bring Record Price.

Justin, Texas, May 28.—A local stockman recently sold forty head of high grade cows to a Denton farmer for $3,000, making one of the largest sales for some time.

Woman Awarded Law Degree.

Austin, Texas, May 28.—More than 250 young men and women will receive degrees from the University of Texas in June, which is the largest number ever conferred in one year. Among them will be two or three young women graduates in medicine while one young woman, Miss Rose Zelosky of Fort Worth, will take her diploma in Law. She is the first young woman to graduate from the Law Department.

Eve in Her Glory Here.

Port Arthur, Texas, May 28.—What is believed to be the largest fig ever produced in America is on exhibition at the Board of Trade rooms in this city. The fig measured eight and one-half inches in circumference and weighs six ounces. It is of the Magnolia variety and was produced in the back yard of a fancier, who resides in the thickly populated section of the city. He has other specimens almost as large. The fruit is also famed for its deliciousness.

HER FRIEND'S GOOD ADVICE

The Results Made This Newburg Lady Glad She Followed Suggestion.

Newburg, Ala.—"For more than a year," writes Myrtle Cothrum, of this place, "I suffered with terrible pains in my back and head. I had a sallow complexion, and my face was covered with pimples. Our family doctor only gave me temporary relief.

A friend of mine advised me to try Cardui, so I began taking it, at once, and with the best results, for I was cured after taking two bottles. My mother and my aunt have also used Cardui and were greatly benefited.

I shall always praise Cardui to sick and suffering women."

Cardui is a purely vegetable, perfectly harmless, tonic remedy for women, and will benefit young and old.

Its ingredients are mild herbs, having a gentle, tonic effect, on the womanly constitution.

Cardui has helped a million women back to health and strength.

Have you tried it? If not, please do. It may be just what you need.

Dry Farming Practicable.

Brownsville, Texas, May 28.—One of the largest stalks of corn seen in this section for some time is on exhibition at the rooms of the Chamber of Commerce. The stalk is still more remarkable for the fact that it was grown without irrigation, and the farmer says he has corn grown on the same land varying from three to six ears to each stalk. The stalk on exhibition has a peculiarity in that one of the ears is grown from the first joint nearest the tassel.

A minister up in Canada so the press dispatches say opened the prize fight Saturday night with prayer and in the very first round one of the principals was killed by a blow under the heart or on the neck delivered by the other fighter To us this is some evidence that the prayer uttered by that minister did not reach a great way in the direction prayers are usually thought to ascend

At the Confederate reunion parade given in Chattanooga no ladies were permitted to ride astride. It may be and probably is the most correct sensible and convenient way for ladies to ride, but it is evident the new style did not appeal strongly to the old gray haired vets. The rest of us have no objection. In fact most men rather fancy looking at ladies thus mounted, provided of course, that the riders are wives or sisters of some other man.

A Pennsylvania oil man went out to Wichita Falls and undertook to lease some oil land from one of the wealthy and beautiful belles of that city The young lady refused to lease the land to the Pennsylvanian, and he got busy, courted her and yesterday led her to Hyman's altar Those oil fellows are not afraid to risk anything.—Sherman Democrat.

MORE ABOUT THE AMENDMENT.

In making up his mind as to how he will vote on the amendment to sections 51 and 52 of Article 3 of the Constitution, the voter must consider the following questions

1, Is he willing to authorize the state officials to create debts against the state to the amount of a half million dollars, which may be repeated as often as the debt is paid, and which the tax payer must pay?

2 Does he favor the issuing of bonds to build another Agricultural and Mechanical College at Austin in connection with the University?

3 Does he favor giving the Legislature unlimited power to issue any amount of bonds it may see fit for buildings for "other institutions?"

4 Does he believe it good public policy to issue three million dollars' worth of bonds for the penitentiary system, which in two years has lost two million dollars?

5 Is he willing, as a tax payer to pay his share of the seven million dollars' worth of bonds which will be immediately demanded of the Legislature should this amendment be adopted?

6 Does he believe it good public policy for the voter to be forced to vote for seven different propositions, or against all of them or not vote at all?

Guessing vs. Knowing

If I were selling nails or glass or pills or garden sass, or honey from the bee—whatever line of goods were mine, I'd study up that special line and know its history
If I a stock of rugs should keep I'd read up sundry books on sheep and wool and how it grows Beneath my old bald freckled roof I'd store some facts on warp and other things like those I'd try to know a spinning jack from a patent churn or wagon rack a loom from hog tight fence and if a man came in to buy and asked some leading question I could answer with some sense
If I were selling books I'd know a Shakespeare from an Edgar Poe a Carlyle from a Pope and I would konw Fitzgerald's rhymes from Laura Libbey's brand of crimes or Lillian Russell's dope

If I were selling shoes I'd seize the fact that on gooseberry trees, good leather doesn't grow that shoe pegs do not grow like oats that cowhide doesn't come from goats—such things I'd surely know
——And if I were a grocer man I'd open now and then a can and see what stuff is held, 'twere better than to writhe in woe and make reply "I didn't 'know'" when some mad patron yelled
I hate to hear a merchant say "I think that this is splendid hay" "I guess it's first class tea He ought to know how good things are if he would sell his silk or tar or other goods to me Oh knowledge is the stuff that wins the man without it soon begins to get his trade in kinks No matter where a fellow goes he's valued for the things he [illegible] not for the things he thinks—Walter Mason
